SAN GABRIEL HOMELESS PLAN INPUT

Business Input Needed: San Gabriel Homeless Plan

The City of San Gabriel recently launched a planning process to identify strategies and action steps we can pursue to improve efforts to prevent and reduce homelessness in our community. This planning process is being facilitated by Focus Strategies, a national consulting firm focused on homelessness response efforts, in partnership with the San Gabriel Valley Council of Governments. An update on this effort was provided to City Council on July 21, 2020, and you can read more about it [here](#).

Over the next month, Focus Strategies will be facilitating a series of virtual meetings with local community representatives, and we are also hosting an online survey for stakeholders to provide input on this matter. You can find the survey [here](#).

Please take a couple of minutes to click on the link and provide your input as a business stakeholder. We appreciate your time and your participation in this effort. If you are interested in further participation via a virtual listening session, kindly reply to this newsletter, or email our team at SanGabrielBusiness@sqch.org.

Thank you!
